

If you think Hurricanes are rough...

The Nastiest, Smelliest, Most EXTREME Places In Our Solar System

Dr. David Baker

Associate Professor and Chair of Physics

Austin College

Author of Award Winning Book

4pm Thursday September 15 in Bate 2003

Book Signing to follow presentation

“I fully recommend this book to anyone of any age with an interest in the Solar System and how much of a hostile, humbling and amazing place it is.”

- *Astronomy Now*

“This book moves our understanding of the extreme earthly phenomena (hurricanes, earthquakes, tsunamis, and volcanic eruptions) into extraterrestrial dimensions...”

- *NASA History Program Office*
